Click on the image to open the PDF of the event

The poster for the Hydro 2024 event is divided into two main sections. On the left is a vertical red bar containing six small images: a lake in a mountain valley, a town with red roofs, a dam, a panel discussion, a turquoise lake, and a close-up of a dam's spillway. The right section has a light beige background with a faint cityscape. At the top, it reads 'International Conference and Exhibition' in grey. Below that is the 'HYDRO 2024' logo in red, with a stylized red turbine icon. The main title 'HYDRO 2024' is in large red letters, followed by the subtitle 'Secure technology for turbulent times' in black. The location and dates are listed as 'Messe Congress Graz (MCG), Austria' and '18 to 20 November 2024'. It mentions the organizing body 'THE INTERNATIONAL JOURNAL ON HYDROPOWER & DAMS' and lists supporting organizations with their logos: CIGB ICOLD, IAH, and IAWQ. A paragraph states: 'Following previous events in Gmunden (1999), Villach (2005), and Innsbruck (2013) we are delighted to be bringing our next major international hydropower conference back to Austria'. At the bottom, it provides contact information: 'Regular updates will be posted on our website and published in *Hydropower & Dams*. Email: Hydro2024@hydropower-dams.com www.hydropower-dams.com'.
