The poster for the Hydro 2024 event is divided into two main sections. On the left, a vertical red bar contains six small images: a lake in a mountain valley, a town with red roofs, a dam, a panel discussion, a turquoise lake, and a close-up of a dam's spillway. The right section has a light background with a faint cityscape. At the top, it reads 'International Conference and Exhibition' and 'HYDRO 2024' with a stylized turbine icon. Below that, the title 'HYDRO 2024' is repeated in large red letters, followed by the tagline 'Secure technology for turbulent times' and the event details: 'Messe Congress Graz (MCG), Austria' and '18 to 20 November 2024'. It lists the organizing body as 'THE INTERNATIONAL JOURNAL ON HYDROPOWER & DAMS' and supporting organizations including CIGB, ICOLD, and the International Hydropower Association. A paragraph mentions previous events in Gmunden (1999), Villach (2005), and Innsbruck (2013). At the bottom, it provides contact information: 'Regular updates will be posted on our website and published in *Hydropower & Dams*', 'Email: Hydro2024@hydropower-dams.com', and 'www.hydropower-dams.com'.

International Conference and Exhibition

**HYDRO
2024**

HYDRO 2024
Secure technology for turbulent times

Messe Congress Graz (MCG), Austria
18 to 20 November 2024
