HYDROVISION International® is the premier gathering of global hydro, marine energy, and dams/civil market professionals. As the largest industry event worldwide, it brings together over 2,500 hydro visionaries from power producers, utilities, consultants, large-scale hydro energy users, and engineering, procurement & construction firms from 40+ countries to connect, learn, and discover new solutions. Our conference & exhibition offers unparalleled education and sourcing opportunities that cater to all aspects of hydropower, including Operations, Maintenance, Civil Works, Dam Safety, Policies, Regulations, Equipment, Technology, Market Trends, and Asset Strategies. Sessions are led by industry experts, thought leaders, and innovators. But that's not all. We offer peer-to-peer networking events that foster professional development and cultivate innovation, to help keep the market momentum flowing.
