New possibilities for ICOLD

The joint ICOLD-CIGB event that was held in Beijing in January 2011. The two organisations met to discuss the challenges of dam safety and the need for improved international co-operation. The event was held in Beijing, China, and was the first time that the two organisations had met in person. The event was held in Beijing, China, and was the first time that the two organisations had met in person. The event was held in Beijing, China, and was the first time that the two organisations had met in person.
