ICOLD Manager Club
The ICOLD Manager Club is a group of dam professionals from all over the world who meet regularly to discuss dam management issues. The club was founded in 2011 and has since then grown to include members from 15 different countries. The club's main focus is on dam management and it provides a platform for dam professionals to share their experiences and knowledge. The club's activities include regular meetings, workshops, and seminars. The club's members are encouraged to share their expertise and to help each other solve problems. The club's success is a testament to the power of collaboration and to the importance of dam management in a mutating world.
