

SHERPA, new solutions for hydropower plants

SHERPA is an EU-funded project that will develop and validate a range of innovative technologies designed to **refurbish existing hydropower plants and improve their efficiency and environmental performance.**

SHERPA is composed by **7 entities from 4 different EU countries** (Spain, Germany, Ireland and Belgium): Iberdrola Generación S.A. (project coordinator), Asociación de Investigación Metalúrgica del Noroeste, Voith Hydro Holding GmbH & Co. KG, EPRI Europe DAC, Innometrics SL., AECOM Spain, DCS, S.L., and Zabala Innovation.
